34rd business exhibition for technical industries

B I L T I M TEHNIKA'25

September 25-27

Largest business exhibition for technical industries in Latvia!

Participate in the exhibition to meet your existing and potential clients in person, strengthen the visibility of your company and product brands, and establish new business contacts.

For many years the name of the exhibition was "**LAUKSAIMNIECĪBAS UN MEŽA TEHNIKA**". However, for several years now, the range of themes represented at the exhibition is gradually becoming wider. Therefore - in order for the name of the exhibition to more accurately describe all the themes represented in the exhibition, in 2023 **the name of the exhibition was changed to "BILTIM TEHNIKA"**.

BILTIM: this word consists of the first letters of the names of the themes represented in the exhibition (themes in Latvian).

In previous years, the exhibition gathered an average of **190** exhibitors and **8 thousand** visitors to the exhibition (this number does not include the representatives of the exhibitors).

Depending on the planned exposition, the exhibitors have options to choose exhibition areas:

- indoors, in the hall - stands of standardized construction or unbuilt stand places,
- in a large outdoor area - areas of various sizes, configurations and surface coverages are available.

Find out more about the possibilities of participation in the exhibition on our website www.ramava.lv (in the section "Exhibition BILTIM TEHNIKA"/ "Apply and participate"), as well as by contacting us: **+371 67600409** and izstade@ramava.lv

Let us contact soon!

And see you at the exhibition on September 25-27 in the business center RĀMAVA, Latvia!
