- In previous years, the exhibition gathered together:
 - an average of **240-280** exhibitors from industries that directly or indirectly offer solutions and services to agriculture and related spheres, as well as communal services providers, builders,
 - and around **10,000** exhibition visitors representing more than 3,000 companies – farms, utility service providers, construction service providers and other interested parties looking for solutions for work or private needs.
- Depending on the planned exposition, the exhibitors have options to choose exhibition areas:
 - **indoors, in the hall** – stands of standardized construction or unbuilt stand places,
 - in several hectares large **outdoor area** – areas of various sizes, configurations and surface coverages are available.
